Understanding the DRA 40 and Its Context in Reading Assessment

What Is DRA 40?

The Developmental Reading Assessment (DRA) is a widely used formative and summative assessment tool designed to evaluate a student's reading level, comprehension, accuracy, and fluency. The "40" in DRA 40 indicates a specific level within the DRA scale, typically corresponding to a particular grade range—often around second to third grade, depending on the district's implementation.

DRA 40 passages are carefully curated texts that challenge students to demonstrate their reading capabilities while providing educators with measurable data. These passages are aligned with developmental reading stages, ensuring that the assessment is both appropriate and meaningful for the student's current reading skills.

The Role of Running Records in DRA

A running record is a diagnostic tool used during reading instruction where an educator observes and notes a student's reading behaviors as they read aloud. It captures errors, self-corrections, fluency, and comprehension cues in real-time. When paired with the DRA 40 passages, running records offer a granular view of a student's reading process, helping identify specific strengths and areas for growth.
