This article aims to explore the multifaceted landscape of educating the Germans, examining the policies that drive this process, the societal implications, and the challenges faced along the way.

Historical Context of Education in Germany

Understanding the current state of education and policy in Germany requires a look into its historical development. Post-World War II, Germany underwent significant reforms aimed at fostering democratic values and rebuilding its educational institutions. The division between East and West Germany also led to divergent educational policies, which only unified after reunification in 1990.

- The expansion of the dual system of vocational training.
- Incorporation of environmental education in the 1970s.
