Proper butchering is more than just splitting meat from bones; it's an art that impacts the taste, texture, and safety of your game. Correct processing minimizes waste, preserves nutrients, and prevents spoilage or contamination. Additionally, a clean, efficient approach makes the entire process safer and more enjoyable.

Preparing for Butchering

Tools and Equipment Needed

Having the right tools simplifies the butchering process and ensures safety:

- Sharp boning or fillet knives
- Skinning knives
- Cutting board (preferably plastic or sanitized wood)
- Gloves (latex or nitrile for hygiene)
- Kitchen shears
- Bone saw or hacksaw (for larger bones)
- Bucket or container for waste
- Cooler or refrigeration space

Preparation and Safety Tips

- Work in a clean, well-lit area to maintain hygiene.
- Wear gloves to prevent contamination and for safety.
- Chill the game: Cool the carcass in a refrigerator or on ice for easier butchering.
- Wash hands and tools thoroughly before and after processing.

Step-by-Step Butchering of Small Game and Birds

The general process involves several key steps: skinning, evisceration, cutting, and portioning.

1. Skinning the Game

Skinning helps remove fur or feathers and prepares the carcass for further processing.

For Rabbits and Hares:

- Hang the animal by the hind legs.
- Make a small incision around the ankles.
- Gently peel the skin downward, working from the hind legs toward the head.
- Use your fingers or a knife to separate the skin, avoiding puncturing the meat.

For Birds (Pou):

- Remove the bird from its packaging.
- Use scissors or a knife to cut around the legs and tail.
- Carefully peel
